

**NO SMOKING ON PREMISES AGREEMENT**

Welcome to our state-of-the-art wound care center. We want all our patients and guests to feel relaxed and comfortable when you visit our center. This center is a “No Smoking” facility. By that we mean, no cigarettes, cigars, pipes, vaping, e-cigarette or chewing tobacco are allowed on our property. Nicotine will delay wound healing and we also have two hyperbaric oxygen chambers on-site. For that we have two liquid oxygen tanks in the back of our building. These tanks convert the liquid oxygen to a gas and it is pumped into the building for our hyperbaric chambers to use. This is another reason why no smoking of any kind is allowed on the premises. This could lead to a potential and catastrophic fire hazard. By acknowledging this and signing this agreement, you are agreeing to our “No Smoking” policy. If you or anyone of your guests are caught breaking this agreement we could discharge you from our program. We will retain you as a patient for up to 30 days to allow you to find a new provider.
