

My dear patients,

As I have told many of you, I made the decision this year to sell my practice to Swedish Medical Group in order to expand it. This contract is now complete and I am thrilled to announce that I will be moving the office on Sept 3-6. The details and location of the new office are below. What does this mean for the practice?

- 1) Any consultations or other problem visits can now be billed to insurance.
- 2) I can see patients for general gynecologic visits, manage hormones, and do biopsies, and surgeries. I will continue to specialize in menopause and perimenopause, vulvo-vaginal disorders such as lichen sclerosus and lichen planus, and sexual function.
- 3) If you are a laser patient of mine the pricing and contract you signed with me are still valid.
- 4) MonaLisa is still not covered by insurance. This will continue to be self-pay. *The exception to this is using the laser for lichen sclerosus. We are starting to see some insurance companies cover laser for this indication, but it is still rare so we will work with you to see if we can get this covered. If not it will still be self-pay.*
- 5) There will be much more availability, as I will be seeing patients at minimum 3 days a week.
- 6) The current website, email and phone will change over to the new office and Epic mychart.

Starting Sept 3, 2019 the practice will be located in the offices of Swedish OBGYN Specialists, First Hill, and they will do all of the scheduling. They can not schedule for me before September 3, 2019:

1101 Madison Street, Suite 700

Seattle , WA 98104

Phone: 206-215-6300

Fax: 206-215-6301

Here is a link for map and directions:

<https://www.google.com/maps?cid=1323159807019999242>

There is parking under the building, entrance to that parking is on Marion or Minor.

It is not reimbursed or validated, and costs \$4 an hour.

Here is the website where you can access the new and return patient forms:

<https://www.swedish.org/locations/swedish-ob-gyn-specialists-first-hill>

I am so excited about this change as it allows me to do so much more for my patients.

If you have any questions or concerns email me or give us a call at 206-565-7976.

Rebecca
