Health & Resource Fair at CARS' Residential Addiction Recovery Center (RARC)

Our first Health & Resource Fair, which took place Friday, June 7th, was a great success! Seven local organizations, including Catholic Charities of Tompkins and Tioga, Ithaca Pregnancy Center, OAR of Tompkins County, The Salvation Army of Ithaca, Tompkins Cortland Community College (TC3), Tompkins County Mental Health, and Tompkins County Workers' Center, participated by sending representatives to the RARC.

The Health & Resource Fair, which was open to our residential clients and staff, enabled participating organizations to table and share information about their community resources. Our residential clients greatly enjoyed having the opportunity to meet representatives from these local nonprofit organizations at the residence and to partake in a variety of opportunities ranging from The Salvation Army's "National Doughnut Day" festivities to the ability to apply for college at TC3. Five of our residential clients applied for admission to college during the Fair! Based on the excellent response we received from clients, staff, and participating organizations, we look forward to hosting additional Health & Resource Fairs in the future.
