

# Become your best self, again.

PrTMS can improve sleep, focus, mood, and so much more through non-invasive, drug-free treatments.

**“We are passionate about, and dedicated to the advancement of non-invasive, drug-free healing technologies and personalized medicine.”**

## A Complimentary Dinner Presentation on October 24<sup>th</sup> at 6pm in 4S Ranch

Please join Dr.’s Kevin Murphy and Michael Fitzgerald for an informative presentation about Personalized repetitive Transcranial Magnetic Stimulation (PrTMS) for the treatment of major depressive and anxiety disorders. Typically, pharmaceuticals and talk therapy have been used to treat these types of disorders. However, these treatments can carry uncomfortable side effects and take months or longer to show benefit. PrTMS™ uses technology cleared by the FDA for treatment of drug-resistant Major Depressive Disorder. This innovative technique targets functional areas of the brain with specific frequencies for a certain length of time, based upon each patient’s unique needs, in order to help correct and balance brain function.

**Join Us at Mindset to Learn More about PrTMS!**  
Dinner will be catered by Capri Blu

**Location:** MindSet, 16918 Dove Canyon Road, Suite 102, San Diego, CA  
**When:** October 24, 2019 from 6:00pm - 9:00pm

Dr. Murphy’s presentation is open to new or current patients as well as local healthcare providers and non-profit organizations. Dinner will be served during the lecture which lasts approximately 1 hour followed by questions & answers. Family, friends, & colleagues are welcome!

Kevin T. Murphy, MD is a board-certified Radiation Neuro-Oncologist and Founder of Mindset. He has had clinical success in treating **over 3,000 patients** with PrTMS for a variety of neurocognitive disorders including depression, anxiety, PTSD, autism, head injuries and sleep disorders, and is a thought leader in this field. PrTMS is well-tolerated and often has a more rapid onset of efficacy.

Mindset is proud to welcome Michael Fitzgerald, M.D., to our staff. Mike is a board-certified Psychiatrist and graduate of Jefferson Medical College, and the UC San Diego Psychiatric Residency Training Program. He is now accepting new patients.

*Mindset now accepts insurance, please call for more info.*
