Using Your Medical Insurance

Due to Recent Changes in the Healthcare Insurance Industry:

Copay: Due at the time of service. Cash or Check is accepted.

Deductible & Coinsurance: A valid credit/debit card needs to be recorded. (See below)

- A bill will be submitted to your insurance company.
- If your deductible or coinsurance is owed, and payment is not received from your insurance provider, your credit/debit card will be charged and you will receive a receipt for charges paid.

Theory: A deductible is the amount you pay for health care services before your health insurance begins to pay.

Coinsurance is your share of the costs of a health care service. It's usually figured as a percentage of the total charge for the service. You start paying coinsurance after you've paid your plan's deductible.

The insurance company requires that this office collect directly from the policy holder the cost of services rendered that are less than the deductible plus any coinsurance prior to the insurance company issuing any payment for the services utilized.

I agree to comply with all terms of this payment policy and acknowledge that I am personally responsible for any deductibles or coinsurance.

Your name (print): _____ **Date:** _____

Signature: _____
