

## **Patient Contact Lens Information Sheet**

As of September 1, 2019, we have updated our contact lens fitting fee policy.

A contact lens fitting fee of \$90.00 is charged and payable on the day of service to anyone who has never received this service in our office. Annually you will be required to be re-evaluated and our fee is \$60.00 for this visit.

The appointment to be fitted/measured must be scheduled within 30 days of your most recent eye exam. After 30 days, we require you to have a new exam to determine if there has been any change in your vision.

Our fee includes:

- Measurement of your eyes (K-readings) for contact lenses.
- Calculation of contact lens prescription.
- One free pair of trial lenses.
- Educational class to instruct on proper insertion/removal & care of the lenses.
- A follow-up appointment with your physician to ensure proper fit and prescription.

Please note this fee is in addition to any fees charged for other services provided in our office such as a routine eye exam. The fee is payable at the time of the appointment as it is usually not a covered benefit under most insurance plans.

Most vision insurance plans will cover either the cost of new glasses or contact lenses but not both. Please check with your carrier for specifics.

Placing an Order for Contact Lenses:

- You may order your contacts through our office. If you prefer to order from an outside source, we will provide you with a prescription from us.
- We require our patients to use the trial lenses and keep the 2-week follow-up appointment before placing an order or providing the prescription.
- We require a 50% deposit prior to placing your contact lens order. It takes approximately 1 week for the order to arrive in our office.
- Should you decide to cancel your order after we have placed it with our supplier, you will receive a refund of your deposit less any return shipping costs to send the lenses back to our supplier.
- We do not offer same day contact lenses.
