When it comes to foot and ankle care, Dr. Thomas Rambacher is leading the way with the most advanced treatment options for all ages and activity levels. Whether you or someone you care about suffers from discomfort, a chronic condition or injury, Dr. Rambacher has the knowledge, tools and technology to help bring restoration and healing. With a state-of-the-art office that is conveniently located and freeway close, Podiatry Hotline Foot and Ankle offers friendly, compassionate, continuity of care with treatments offered both in-office and at the hospital level.

"I have the expertise to treat runners

and sport related injuries like neuromas and pronation as easily as daily problems such as bunions and hammertoes," says Dr. Rambacher. "I also treat children of all ages who suffer from flat feet and growing pains in the feet; adults with day-to-day foot, heel or ankle pain; and older adult foot-care maintenance and diabetic concerns. Our services are designed to cater to the whole family."

With a practice specializing in minimally invasive surgical procedures and regenerative medicine to safely and effectively accelerate the natural healing process, Dr. Rambacher also incorporates ethical cord blood and placental tissue when warranted to augment or assist with

traditional podiatric procedures.

With your convenience in mind, Podiatry Hotline Foot and Ankle features state-of-the-art equipment to allow for prompt and accurate diagnosis for most foot and ankle problems, and an easily accessible "Podiatry Hotline" telephone, text system and online scheduling, so you can always communicate with the doctor and his staff. Known for his compassionate, solution-minded approach, Dr. Rambacher emphasizes podiatric care that offers patients an accurate diagnosis and personally-tailored treatment plans. "By getting the diagnosis right the first time, we help patients avoid painful and costly corrective procedures later."

NEW MODERN LOCATION

Dr. Thomas Rambacher
DPM, FACFAS, FAWCA

Podiatry Hotline Foot and Ankle

WHEN it comes to foot and ankle care, Dr. Thomas Rambacher is leading the way with the most advanced treatment options. With a newly renovated state-of-the-art office that is conveniently located and freeway close, patients throughout Orange County can now enjoy Dr. Rambacher's unparalleled caliber of podiatry care.

The new office is exceptionally appointed with ultra-modern equipment and advanced technology, allowing Dr. Rambacher to provide his patients with the most innovative treatment options, including numerous alternatives to traditional surgery. Dr. Rambacher specializes in minimally invasive surgical procedures and regenerative medicine to safely and effectively accelerate the natural healing process. Ever on the leading edge, Dr. Rambacher incorporates cord blood and placental tissue when warranted to augment or assist with traditional podiatric procedures.

"Regenerative medicine has been proven to successfully treat acute and chronic wounds because of its ability to restore the body's natural healing barriers. Regenerative therapies also decrease the inflammation and pain commonly associated with podiatric procedures," says Dr. Rambacher. "These treatment options are ideal for anyone who wants less down time and a faster recovery process. In my practice, I'm seeing exceptional results using regenerative therapies to treat everything from bunions and sports injuries to diabetic foot ulcers."

Dr. Rambacher also offers ultrasound treatments, interferential treatments, radio frequency treatments, pneumatic medical treatments, and herbal medicines. Known for his compassionate, solution-minded approach, Dr. Rambacher emphasizes podiatric care that offers patients an accurate diagnosis and personally-tailored treatment plans. "By getting the diagnosis right the first time we help patients avoid painful and costly corrective procedures later."
