

# SECOND TIME AROUND

Dr. Rafael C. Cabrera Of Plastic Surgery Specialists of Boca Raton Specializes In Natural-Looking Facelifts

Dr. Rafael C. Cabrera

**I**t's no secret that we all want to look as good as we feel, right? Nobody understands that better than well-known and respected Boca Raton Plastic Surgeon, Dr. Rafael Cabrera. He is renowned for his beautiful natural-looking facelift results and delivering top-of-the-line patient care. "Primary and secondary facelifts are the most common procedures in my practice," says Dr. Cabrera. "Getting older doesn't have to be what it once was. My patients are active, healthy and living life to the fullest. They want their outer appearance

**Facelifts, especially secondary facelifts, deserve the attention of an experienced expert.**

to be in balance with their inner self," he says.

Dr. Cabrera's results and safety record speak for themselves, so we wondered, what else sets this talented surgeon apart?

"I'm very upfront," says Dr. Cabrera. "People understand that I mean what I say; I say what I mean and they never have to worry about an ulterior

motive. We are completely transparent here," he says. Dr. Cabrera goes on to explain that he is never persuaded by his bottom line and his top priority is doing what's right for the patient. He also emphasizes the fact that facelifts, especially secondary facelifts, deserve the attention of an experienced expert. "Management of delicate tissue, incision placement and replacement of volume are all critical components to this procedure. It is a fusion of art and science at its finest."

Plastic Surgery Specialists of Boca Raton is committed to excellence. Dr. Cabrera is a Board Certified Plastic Surgeon and trained with the "masters" at New York University Institute

of Reconstructive Plastic Surgery. In practice for more than 15 years, Dr. Cabrera has four fully accredited operating suites that offer the highest standard in patient safety and comfort. He utilizes the safest surgical and anesthetic approaches and many procedures can be performed with simple one-pill sedation. Patients appreciate this anxiety-free technique.
