Rafael C. Cabrera, M.D., F.A.C.S.

"We often hear people refer to the facelift as the "F" word, but it doesn't have to be a dirty word."

PROCEDURE
Facial Rejuvenation

BENEFITS
Facial rejuvenation performed by a Board Certified Plastic Surgery Specialist. Local anesthesia together with one-pill sedation and no overnight stay. Recovery can be complete within 7-14 days.

WHO SHOULD GET IT?
Anyone wishing to achieve natural, long lasting results utilizing the safest surgical and anesthetic approaches.

WITHOUT QUESTION, OUR APPEARANCE IS AN IMPORTANT PART OF OUR SELF IMAGE. When considering facial rejuvenation you should insist on an invisibly beautiful result, impeccable safety, delivered by expert hands. This is not only what you should want and expect, but deserve.

Plastic Surgery Specialists of Boca Raton is committed to excellence. Pure and simple, this resolution guides everything they do. Dr. Cabrera's personal surgical techniques have evolved over the 15 years since he completed his training with the "masters" at New York University Institute of Reconstructive Plastic surgery. He evaluates every patient with the "trinity of aging" in mind: looseness of tissue, loss of facial fat, and quality of skin cover. Dr. Cabrera is committed to flattering your best features and subtly reversing signs of aging. We often hear people refer to the facelift as the "F" word, but it doesn't have to be a dirty word. Face lifting is an art. The art is in removing excess skin, restoring flat contours, smoothing and rejuvenating the skin. Fat replacement and laser light are used concurrently with minimally invasive surgery to achieve the balance of natural results and short painless recovery.

The best part is this can be done with simple pill sedation, local anesthesia, and no overnight stay. In over seven years, with more than 650 aesthetic facial operations, Dr. Cabrera has an unparalleled safety record with zero anesthetic complications reported. This will keep your loved ones happy and secure knowing your safety is always of paramount importance.
