Patient Information about Pathology Billing

Your biopsy specimen is being sent to UCSF Dermatopathology and Oral Pathology Service for microscopic examination, diagnosis and reporting.

The fee for this laboratory service is NOT included in the service you received today.

What information is required from me?

Please be sure your clinician has your updated insurance and demographic information.

Will my insurance be billed for this service?

Yes, we will bill your medical and/or dental insurance.

Why do you need my medical insurance?

Laboratory services are a medical benefit and are usually covered by your medical insurance.

What amount do I have to pay?

Co-insurance, co-payment and deductibles are determined by your insurance plan and are your responsibility.

How will I know that my insurance was billed?

The information we received from your visit should be reflected on your statement along with any payments and adjustments made by your insurance plan.

When is my payment due?

Payment is due upon receipt of the statement.

What if I don't understand my statement?

If you have questions about what appears on your statement, please call our billing agent using the number that appears on your statement.
