New Year, New Decade, New Smile, New You!

- As we begin the dawn of a new decade as well as a new year, we often resolve to lose weight, look better and live well. Weight comes and goes. Looking and living better may be as simple as *smiling more*.

- An attractive, confident smile can be just the platform you need for a more successful, positive life. Your smile can be

the outward indication of the kind of person you are. Your smile speaks volumes about you before you even say a word. On the other hand, oral health issues like missing or crooked teeth can cause you to have a lack of confidence, not to mention other health problems. Don't wait for another year to pass. Take time to take care of your smile now. **Gary Green, DMD** is a prosthodontist/ dental implant specialist that can make your smile glow.
