

Dear Centennial Eye & Cosmetic Associate Patients,
RE: COVID-19

We consider all of our patients here at CEA a part of our family and your safety remains our highest priority.

We are in the health care industry to take care of our patients and in the midst of this COVID-19 outbreak it's important that we give you as much information as possible when you are planning to visit our office. We want you to know that we disinfect our office thoroughly everyday as it has been a procedure we have always followed. With that said, we have made a decision to disinfect our office thoroughly not only once per day, but now twice a day. In addition, we are asking patients with any remote symptoms of COVID-19 to not come to the office.

Our teams are in regular contact with the Centers for Disease Control and Prevention (CDC), the World Health Organization (WHO), federal agencies and other global health organizations to share the most up-to-the-minute information to ensure the actions we're taking are comprehensive and appropriate.

I know I speak for every member of our Centennial Eye & Cosmetic Associate family when I say that we take the greatest pride in the role we play in the lives of our patients, personally and professionally.

I want you to know that you can continue to rely on us for your exceptional eye and health care needs. So, the next time we have the privilege of seeing you in our practice you can know our commitment to you remains as steadfast as ever.

Kind regards,

Kim Burrell, DO
