

At Optimal Pain & Regenerative Medicine, we have been closely monitoring the COVID-19 pandemic. Our highest priority is the health & safety of our patients, our employees, and the community.

In light of the ongoing COVID-19 threat and Governor Abbott's Executive Order, we have decided to postpone elective & non-essential procedures, effective March 23rd. We have also initiated a telemedicine program across all our clinics in order to better serve our established patient populations, while trying to minimize the risk of exposure to you & your families. We urge you to please call our office at (817) 468-4343 or contact us through the Patient Portal, to organize a telemedicine appointment.

Office hours will vary based off urgent medical needs.

Phone hours will remain the same, 8am-5pm, Mon.- Thurs.

To contact the office via the Patient Portal, please visit the web address below:

<https://18538.portal.athenahealth>

Please download the MyCarePlan app for all smartphones/tablets for easy access to our telemedicine program.

Thank you, be safe & stay healthy!
