

Preserve your legs. Protect your lifestyle.

Welcome to South Charlotte General and Vascular Surgery.

We are dedicated to providing you with state-of-the-art and lasting care for your vascular problems in a comfortable and serene environment. Our providers are respected experts in the field and are renowned for their commitment to better care and better outcomes.

Your first visit with us will usually include:

- Detailed questionnaire about your symptoms, lifestyle and your goals for treatment
- Preliminary documentation of your symptoms and medical history by our medical staff.
- A physical exam by one our expert providers and a detailed discussion about your symptoms
- An ultrasound or non-invasive testing may be essential for making an accurate and precise diagnosis and formulating a comprehensive plan for your care. A detailed study will be scheduled in our accredited vascular lab with our highly trained technologists.

Your second visit will usually include:

- Review of your testing
- A firm diagnosis of your problem
- Your specific insurance benefits explained to prevent any unexpected charges.
- Treatment options, alternatives, and risks clearly explained in plain language. We strongly believe in shared decision making: we will present you with sensible and effective treatment options, and help you decide which option is best for you
- All questions answered to your satisfaction

Please:

- Completely fill out the forms on your patient portal; if you don't have access to a computer, completely fill out the enclosed forms and bring them with you. That will save a lot of time during your visit
- If you had any prior vascular procedures, it would be very helpful if you could bring with you any documentation or test results
- Arrive 30 minutes early to complete any additional paperwork
- Bring your updated insurance cards and a current photo ID with you.

Our staff is committed to providing you with the most professional and personalized care. We understand that you have a choice and hope to earn your trust in caring for you. Let us help you maintain your vascular health and protect your lifestyle!
