

ALLIED HEALTH SOLUTIONS MEDICAL GROUP RESPONSE TO COVID-19

Dear Patients,

In case of an emergency or life threatening condition, please call 911.

Due to the COVID 19 situation, our clinics remain closed to walk-ins, until further notice, however we continue to provide Telehealth and other services, as follows:

New and Existing Patients

Staff will be calling patients at the time of their scheduled appointments. The Provider will conduct a telephonic consultation to evaluate the patient's condition and gather the necessary medical information. Prescriptions will be faxed or called into the Pharmacy. If appropriate, referrals will be processed and mailed to the patient's home. In the event that the Provider needs to speak to a patient regarding his/her test results, he/she will call the patient on the telephone number on file. If necessary, Urgent Care locations will also be provided.

This new process is necessary to limit the exposure to COVID 19 virus for our staff and patients.

Please continue to call our offices during regular office hours, or send us a message using the "Contact" message portal on our website, www.alliedhealthsolutions.com. Our staff will be available to respond to your inquires.

Please continue to follow CDC's recommendations to avoid COVID 19 infection.
