TELEMEDICINE PATIENT CONSENT FORM

- I, the undersigned patient, understand that I choose to have a telemedicine visit via the internet, using the app called Zoom, with the physician or mid-level provider of the Allergy and Asthma Center practice.
- I understand that I have been offered an in-person office visit with the provider, but I choose to use the telemedicine option.
- I understand that I am responsible for the copay (for a specialist office visit) and any balances not covered by my insurance company. These balances include any deductibles, co-insurance, or insurance rejections. The telemedicine visit will be submitted by the practice to my insurance company first before I am billed. Once the practice receives an Explanation of Benefits, then I will be billed for any potential balances.
- The practice is not responsible for any violation of internet privacy. The practice will do its best to ensure HIPAA compliance but it is not a guarantee since the consult/visit is done over the internet.
- The office visit will be documented in the patient's medical records just like any other office visit, but instead of a written history, there will be link to the Zoom video conversation.
- I understand that the physical examination part of the office visit will be limited due to the video conversation.
- The provider will treat the telemedicine appointment visit like any other office visit (albeit noting the limited physical examination and internet capabilities).

I understand that all of my questions have been answered to the best of the practice's ability. I will not hold the practice (Anita N. Wasan MD PLC, Allergy and Asthma Center) in any liability regarding the use of Zoom, the internet browsers, and the telemedicine provider consultation/visit.
