“I went to Dr. Bajaj's office las week and what a great experience I had! His front staff was extremely helpful when it came to setting up my appointment, notifying me of my upcoming visit and advised me on what I should bring for my consult. Arrived at his office...waited about 5-10 minutes to be seen...Dr. Bajaj explained to me everything that was going on with my lower back pain, which he was very knowledgeable about and advised me on some good pain management treatments for my lower back which have since helped me reduce the inflammation and decreased my pain! I've been to several doctors in the Santa Monica area for the same issue but with no luck on those! He is great...”
