## **COVID-19 Update 3/24/20**

### **We Are Open! Treating Patients Utilizing Tele-Video Visits!**

Due to the state mandated **Shelter-In-Place Order**, and to protect the health of our patients and staff, RehabOne Medical Group will now be conducting patient care via tele-video visits. With tele-video visits, we can continue to deliver essential and time-sensitive patient care.

Our office will be contacting patients to provide instructions and answer any questions. If there are any issues with tele-video, patients can expect a phone call from their provider at their scheduled appointment time.

If there are any questions or concerns, our call center is available, but we do ask for your patience with response time as we are experiencing an increased call volume. We are maintaining our regular office hours at this time. If it is necessary to pick up a prescription or paperwork, all visitors will be screened and expected to adhere to social distancing etiquette.

**Thank you so much for your referrals!  
Visit our website for continued updates. We're in this together!**
