10 YEAR MULTICENTER CORE STUDY
PROVEN DESIGN

Designed to help you create your patient's desired look with long lasting results.

Based on a decade of research into the safety and efficacy of breast implants, our Mentor Core Study\(^1\) provides evidence to support the UNSURPASSED DESIGN of MENTOR® MemoryShape® Breast Implants.

Not a head to head study. Based on the comparison of key complication rates reported in the 10 year Core Studies for MemoryShape\(^R\)/ CPG\(^T\)M Gel Breast Implants, NATRELLE™ 410 TruForm™ 3 Gel Breast Implants, NATRELLE™ Round TruForm™ 1 Gel Breast Implants, and MemoryGel™ Breast Implants.

Clinical data reveals the lowest reported incidence of key complications in primary augmentation at 10 years.\(^1\)

Not a head to head study. Based on the comparison of key complication rates reported in the 10 year Core Studies for MemoryShape\(^R\)/ CPG\(^T\)M Gel Breast Implants, NATRELLE™ 410 TruForm™ 3 Gel Breast Implants, NATRELLE™ Round TruForm™ 1 Gel Breast Implants, and MemoryGel™ Breast Implants.

PROVEN PERFORMANCE

Reliable implants continuously delivering world class clinical results.

The lowest reported risk of key complications in primary breast augmentation at 10 years¹

Not a head to head study. Based on the comparison of key complication rates reported in the 10 year Core Studies for MemoryShape®/CPG™ Gel Breast Implants, NATRELLE™ 410 TruForm™ 3 Gel Breast Implants, NATRELLE™ Round TruForm™ 1 Gel Breast Implants, and MemoryGel™ Breast Implants.

Each Mentor® MemoryShape® Breast Implant undergoes a stringent quality inspection and rigorous testing to ensure quality, performance and shell integrity.

The outcomes of the study speak for themselves, with beautiful, long-lasting results and high patient satisfaction.²

Results that instill confidence in your patients:

PROVEN TEXTURE YOU CAN TRUST

SILTEX™ Texture providing you and your patients with peace of mind.

MENTOR® MemoryShape®/CPG™ Implants are proven to have a low risk of capsular contracture and rotation in primary augmentation patients at 10 years and are covered by the most comprehensive warranty in the market.2

By manufacturing an implant with our proprietary SILTEX™ Imprinted Texture, we have created a surface substantially free of pores and interstices which can contribute to a reduction in key complications related to breast augmentation.3

Our SILTEX™ Texture provides consistent coefficient of friction throughout the device to minimize implant rotation. As a result, MENTOR® MemoryShape®/CPG™ Implants are proven to have a low risk of capsular contracture and rotation in primary augmentation patients at 10 years.2

Proven results that you can trust:

<table>
<thead>
<tr>
<th>Reported incidence of the following complication at 10 years</th>
</tr>
</thead>
<tbody>
<tr>
<td>LOWEST Capsular contracture in primary augmentation¹</td>
</tr>
<tr>
<td>LOWEST Rotation in primary augmentation¹</td>
</tr>
<tr>
<td>NO Silicone particulates left behind</td>
</tr>
<tr>
<td>NO 0 out of 5 No (0) particles suspected to be silicone globules were found in the capsular tissue of 5 patients implanted with SILTEX™ Texture devices⁴</td>
</tr>
</tbody>

Peak  Valley
MENTOR® MemoryShape® Breast Implant’s unique, tapered shape provides more projection at the lower pole offering maximum projection when needed.

As compared to MENTOR® MemoryGel® Breast Implants

With a uniquely formulated form stable highly cohesive gel that holds together uniformly, Mentor® MemoryShape® Breast Implants shape the breast, not the breast shaping the implant, helping you create your patient’s desired look with long lasting results.2

**COMPARISON CHART: MENTOR® MemoryShape® Breast Implants versus other gel implants with approximate base width of 13CM**

To our Mentor customers and patients, we pledge our commitment to excellence. That is why we back our MemoryShape® Breast Implants with the most comprehensive warranty in the industry.

Our MENTOR® MemoryShape® Breast Implants 10 year data demonstrates our passion to deliver safe products that offer high quality, reliable and state-of-the-art design to enhance breast aesthetic procedures. We are determined to continue to provide objective, clinical information about breast implant safety.

MENTOR Warranties & Product Replacement Policy

MENTOR® MemoryGel® Breast Implants and Memory Shape® Breast Implants

We have the industry’s most comprehensive warranty for our full line of MemoryShape® Breast Implants and MemoryGel® Breast Implants and are proud to offer The Mentor & Mentor Enhanced Warranty. For full program details, qualifications and enrollment, visit www.mentorwwllc.com.

For further information, talk to your Mentor sales representative or visit mentorwwllc.com

Important Safety Information

MENTOR® MemoryShape® Breast Implants are indicated for breast augmentation in women at least 22 years old, or for breast reconstruction. Breast implant surgery should not be performed in women with active infection anywhere in their body, with existing cancer or pre-cancer of their breast who have not received adequate treatment for those conditions, or who are pregnant or nursing.

Breast implants are not lifetime devices and breast implantation may not be a one-time surgery. The most common complications with MENTOR® MemoryShape® Breast Implants for breast reconstruction include reoperation for any reason, implant removal with or without replacement, and capsular contracture. A lower risk of complication is rupture. The health consequences of a ruptured silicone gel breast implant have not been fully established. MRI screenings are recommended three years after initial implant surgery and then every two years after to detect silent rupture.

Patients should receive a copy of Patient Educational Brochure – Breast Augmentation with MENTOR® MemoryShape® Breast Implants or Patient Educational Brochure – Breast Reconstruction with MENTOR® MemoryShape® Breast Implants, and a copy of Quick Facts about Breast Augmentation & Reconstruction with MENTOR® MemoryShape® Breast Implants. Your patient needs to read and understand the information regarding the risks and benefits of breast implants, with an opportunity to consult with you prior to deciding on surgery.

For detailed indications, contraindications, warnings, and precautions associated with the use of MENTOR® MemoryShape® Breast Implants please refer to the Product Insert Data Sheet provided with each product, or visit www.mentorwwllc.com.
