DMCA PROVISIONS

The Digital Millennium Copyright Act of 1998, found at 17 U.S.C. § 512 ("DMCA"), provides recourse for owners of copyrighted materials who believe that their rights under United States copyright law have been infringed upon on the Internet.

Under the DMCA, the bona fide owner of copyrighted materials who has a good faith belief that their copyright has been infringed may contact not only the person or entity infringing on their copyright, but may also contact the designated agent of an Internet service provider to report alleged infringements of their protected works, when such alleged infringements appear on pages contained within the system of the Internet service provider ("ISP").

The owner of this website and the ISP are committed to complying with international trade law, international trade practices, all United States laws, including United States copyright law. Upon receipt of a properly filed complaint under the DMCA, the owner and/or the ISP of this website will block access to the allegedly infringing material. The website owner and/or the ISP will forward a copy of the notification of claimed copyright infringement to the alleged infringer. Anyone who believes in good faith that a notice of copyright infringement has wrongfully been filed against them, may submit a Counter notice to the website owner and/or the ISP.

The signature or electronic signature must be that of the copyright owner, or a person authorized to act on behalf of the owner, of an exclusive copyright that has allegedly been infringed.

For details on the information required for valid notification, see 17 U.S.C. § 512(c)(3).

COUNTERNOTIFICATION TO CLAIMED COPYRIGHT INFRINGEMENT

If a notice of copyright infringement has been filed with the website owner and/or the ISP against you, the owner and/or the ISP will attempt to notify you and provide you with a copy of the notice of copyright infringement. If you have a good faith belief that you have been wrongfully accused, you may file a counter notification with the website owner and/or the ISP. If website owner and/or the ISP receive a valid counter notification, the DMCA provides that the removed or blocked information will be restored or access re-enabled.

The website owner and/or the ISP will replace the removed material and cease disabling access to it in not less than 10, nor more than 14, business days following receipt of the counter notification, unless the website owner and/or ISP first receives notice from the complaining party that such complaining party has filed an action seeking a court order to restrain the alleged infringer from engaging in infringing activity relating to the material on this website.

Please be advised that United States copyright law provides substantial penalties for a false counter notice filed in response to a notice of copyright infringement. Accordingly, if you are not sure whether certain material of yours is protected by copyright laws, we suggest that you first contact an attorney.
