Turn left onto S. Monaco St.

S. Monaco St. will turn into E. Quincy Ave.

Turn right onto S. Syracuse St.

Building will be on your left.

## General Information

The Hampden Surgery Center is licensed by the State of Colorado. The Hampden Surgery Center was established in 2012 by clinical and hospital personnel to offer safe, high-quality surgical care. You will find that because the center specializes in outpatient surgery, our patients enjoy many advantages including personalized service and excellent medical care. Before Your Surgery A nurse from the center will contact you at least 24 hours before your surgery. If no one has called, please call the center for instructions. Notify your surgeon if there is a change in your physical condition such as a cold, fever or respiratory problems. Do not eat or drink anything after midnight the night before your operation, including no hard candy or gum. If your child is the patient, please be careful to enforce this. Also, please follow any other special instructions your surgeon may have given you. Failure to follow these instructions may result in cancellation of your surgery. Please be sure to tell your surgeon if you are on any type of blood thinners or aspirin. Please do not take any medications after midnight unless instructed by your surgeon or the nurse at our center. It is very important to arrange for a responsible adult to drive you home and remain with you the first 24 hours after surgery.

## The Day Of Surgery

Wear loose, comfortable clothing that is big enough to accommodate a large bandage after surgery. Wear comfortable shoes. You will need to change into a surgical gown. Do not wear any jewelry (including body piercings), makeup, cologne, or nail polish. Bring your driver's license, insurance cards, and some form of payment. Wearing contact lenses is NOT advised. We provide containers for removable dentures and bridge work. If your child is having surgery, feel free to bring a favorite stuffed animal or security blanket for added assurance.

## After Your Surgery

You will be discharged to your car by wheelchair. If anesthesia has been administered, you must have a responsible adult present to drive you home and to care for you following surgery, and to remain with you the first 24 hours. Your physician will provide post-operative instructions regarding diet, rest, exercise and medications. You will be provided with a written summary of these discharge instructions. A nurse from the Surgery Center will attempt to call you the day after your surgery to check on your progress and discuss any questions you may have. If you have any unexpected problems, please call your doctor. If he/she does not respond, please go to

the nearest emergency room. Thank you for choosing the Hampden Surgery Center.

## Helpful Reminders

Please arrange for a responsible adult to remain in the surgery center the entire time you are scheduled for your procedure. Please limit the number of family or friends who come with you. Seating is very limited. If you are driving more than 30 minutes, put one or two pillows in your car so you can elevate the operative extremity. Females will need to give a urine sample for a pregnancy test pre-operatively.

## Billing Information

After surgery Hampden Surgery Center will submit your bill to your insurance company. You will receive an explanation of benefits from your insurance company. Please contact our business office for any questions regarding your bill, and/or payment options.

**Call 303-220-0810**  
**With Questions**

## PATIENT RIGHTS AND RESPONSIBILITIES

The patient is entitled to certain rights and is required to comply with certain responsibilities to fulfill health care needs. Purpose: To contribute to more effective patient care and greater satisfaction for the patient, his family, the physician and the center caring for them. Patients shall have the following rights without regard to age, race, sex, national origin, religion, cultural, or physical handicap, personal value and benefits. Rights Of The Patient: •Every Patient has the right to courtesy, respect, dignity, privacy, responsiveness, and timely attention to his/her needs. •Every Patient has the right to every consideration of his privacy and individuality as it relates to his social, religious and psychological wellbeing. •Every Patient has the right to confidentiality, to approve or refuse the release of medical information to any individual outside the facility, except in the case of transfer to another health facility, or as required by law or third party payment contract. •Every Patient has the right to express grievances or complaints without fear of reprisals. •Every Patient has the right to continuity of health care. The physician may not discontinue treatment of a patient as long as further treatment is medically indicated, without giving the patient sufficient opportunity to make alternative arrangements. •Every Patient is provided complete information regarding diagnosis, treatment and prognosis, as well as alternative treatments or procedures and the possible risks and side effects associated with treatment. •Every Patient has the right to make decisions regarding the health care that is recommended by the physician. Accordingly, the patient may accept or refuse any recommended medical treatment. If the patient is unable to participate, the patient's rights shall be exercised by the patient's designated representative or other legally designated person. •Every Patient has the right to be informed of any research or experimental projects and to refuse participation without compromise to the patient's usual care. •Every Patient has the right to appropriate treatment and care to include the assessment/management of pain. •Access to provider credentialing.

### Responsibilities Of The Patient:

- Patients are responsible to be honest and direct about matters that relate to them, including answering questions honestly and completely.

- Patients are responsible to provide accurate past and present medical history, present complaints, past illnesses, hospitalizations, surgeries, existence of advance directive, medication and other pertinent data.
- Agree to accept all caregivers without regard to race, color, religion, sex, age, gender preference or handicap, or national origin. •Patients are responsible for assuring that the financial obligations for health care rendered are paid in a timely manner. •Patients are responsible to sign required consents and releases as needed.
- Patients are responsible for their actions, if they should refuse a treatment or procedure, or if they do not follow or understand the instructions given them by the physician or Surgery Center employees. •Patients are responsible for keeping their procedure appointment. If they anticipate a delay or must cancel, they will notify the Surgery Center as soon as possible. •Patients are responsible for the disposition of their valuables, as the Surgery Center does not assume the responsibility.
- Patients are responsible to be respectful of others, or other people's property and the property of the Surgery Center. •Patients are to observe safety and no smoking regulations.

### Patient Complaint or Grievance:

To report a complaint or grievance, you may contact the facility Administrator by phone at (303) 220-0810 or by mail to our address. Complaints and grievances may also be filed with the State of Colorado Department of Health and Hospitals at: Colorado Department of Public Health and Environment, 4300 Cherry Creek Drive South, Denver, CO 80222-1530 or by phone at (303) 692-2827. All Medicare beneficiaries may file a complaint or grievance with the Medicare Beneficiary Ombudsman online at: [www.cms.hhs.gov/center/ombudsman.asp](http://www.cms.hhs.gov/center/ombudsman.asp)

### Advance Directive Notification

You have the right to present an advance directive or receive information about advance directives. In the event of an emergency we will initiate life saving measures and transfer you to an acute care facility. Our contracted transfer facility will honor your advance directive. If you wish to complete an Advance Directive, copies are available at the Center upon request.

### Disclosure of Ownership

Your physician may have a financial interest in this facility. You have the right to choose the provider of your healthcare.

## ASPIRIN/BLOOD THINNER PROTOCOL

FOR PATIENTS NORMALLY TAKING COUMADIN, WHO  
HAVE NOW BEEN ASKED TO SUBSTITUTE WITH LOVENOX IT IS REQUESTED  
THAT YOU DISCONTINUE THE LOVENOX A MINIMUM OF 24 HOURS PRIOR TO  
SURGERY, OR THERE IS A POSSIBILITY YOUR SURGERY WILL BE CANCELLED.

DO NOT TAKE ASPIRIN OR ASPIRIN RELATED PRODUCTS FOR TWO (2) WEEKS  
PRIOR TO YOUR SURGERY - BELOW IS A LIST FOR YOUR CONVENIENCE.

The taking of aspirin and/or aspirin related medications can prove  
harmful to your body's perioperative healing process. Aspirin  
chemically inhibits the ability of the body to form stable clots  
necessary to permit proper healing.

If you are currently taking any medication and are unsure as to  
whether it contains aspirin or has a similar effect as aspirin  
(preventing the formation of stable blood clots), please do not  
hesitate to contact your pharmacist for additional information.

## Herbal Supplement Instructions

IF YOU ARE TAKING ANY OF THESE HERBAL SUPPLEMENTS (LISTED BELOW), WE ASK THAT YOU **STOP TAKING THEM 2 WEEKS PRIOR TO YOUR SURGERY.**

- ECHINACEA
  - EPHEDRA
  - GARLIC
- THIS DOES NOT MEAN GARLIC IN YOUR FOOD.**
- GINKGO
  - GINSENG
  - KAVA
  - ST. JOHN'S WART
  - TURMERIC
  - VALERIAN
  - FLAX SEED OIL, VITAMIN E AND FISH OIL
  - ANY TYPE OF DIET PILLS (METABOLIFE, HERBALIFE, ETC)

IT WAS RECENTLY REPORTED THAT THESE HERBAL SUPPLEMENTS MIGHT CAUSE HARM DURING AND/OR AFTER SURGERY.

THANK YOU FOR YOUR COOPERATION AND ALLOWING US TO KEEP PROVIDING YOU WITH THE BEST CARE.

## A Dangerous Mix

By Ian K. Smith, M.D.

Doctors have never quite figured out what to say about herbal supplements. While alternative medications have become increasingly popular--Americans will spend some \$5 billion this year on natural remedies for everything from arthritis to the common cold--most physicians assumed that even if they didn't know exactly what these remedies did, they were, at worst, harmless. But more and more, doctors are starting to recognize that many natural supplements have medicinal qualities that can complement--or conflict with--the treatments and medications they prescribe.

**The American Society of Anesthesiologists is the latest physicians' group to sound a warning about the potential side effects of alternative medications. Concerned by evidence that some supplements can interfere with anesthesia, the group has issued a recommendation that patients stop taking all natural remedies at least two weeks before surgery--giving the body plenty of time to clear them from the system.**

The anesthesiologists' warning is based on the latest of several findings that are raising doctors' awareness of the risks associated with natural supplements. Take, for instance, ginkgo biloba, used by almost 11 million Americans to improve memory and increase blood circulation. Doctors now believe ginkgo may reduce the number of platelets in the blood and can prevent blood from clotting properly. Taking ginkgo at the same time one is taking blood-thinning medications, like Coumadin or even aspirin, could make a patient dangerously vulnerable to bleeding.

Similarly, St. John's wort, a popular supplement taken to treat anxiety, depression and sleep disorders, is believed to prolong or increase the effects of some narcotic drugs and anesthetic agents. Ginseng, an herb taken to boost vitality, has been associated with high blood pressure and rapid beating of the heart--conditions that could be deadly in the operating room.

Part of the problem is that herbal supplements and mainstream medicine come from two very different worlds and operate in different regulatory environments. The marketing of prescription and over-the-counter drugs is strictly regulated by the Food and Drug Administration, which requires scientific proof of safety and efficacy. Herbal remedies, by contrast, are largely exempt from FDA supervision. Companies can sell herbal preparations without guaranteeing that what's on the label is inside the bottle.

These uncertainties don't mean that you should never take a supplement. But they make it even more important that you discuss whatever you are taking with your physician--something not enough patients do. A recent study showed that although 60 million Americans have taken alternative medicines, only a third of them reported it to their doctors.

This is a bad idea. A drug your doctor prescribes could be perfectly safe and effective, but if you are taking a similar-acting supplement, there is a real danger of cross-reaction. Don't be afraid to bring your herbal supplements to your doctor's office. Your physician may spot a potential conflict on the label or know of another drug--or even another supplement--that works just as well.

Dr. Ian appears on WNBC-TV in New York City. E-mail him at [ianmedical@aol.com](mailto:ianmedical@aol.com) For more on herbals, try [altmed.od.NIH.gov](http://altmed.od.NIH.gov)

[www.Western-Ortho.com](http://www.Western-Ortho.com)

Please be informed that a surgical assistant "S.A." or a Physician Assistant "P.A." may be required for the proper performance of the operation you need. Surgical assistants and Physician Assistants are professional members of the health care team, and are qualified by academic and clinical education to provide assistance to your surgeon during surgery.

If your doctor feels that an assistant is necessary for your procedure, he will use one (some procedures require two assistants), even if your insurance company does not recognize this as a medical necessity. The insurance company will be billed first by the surgical assistant. If your insurance company denies the assistant surgeon, (per our agreement with these assistants) the maximum you are required to pay (per assistant) is \$200 for the first hour and \$25 for each additional 15 minutes. If your insurance company pays for the surgical assistant-the above agreement does not apply.

**Note:** Most insurance companies consider assistant surgeons as "out of network providers" or will not even contract with an assistant surgeon.

**Once you receive a bill from the outside surgical assist company please direct any questions to their billing department. Again - the assistant surgeon company is aware of the above agreement and will correct your bill accordingly. Please do not contact our billing department regarding an outside surgical assistant. Below is a list of assistants we use:**

Surgical Assist Name	Billing Phone#
Roman Bachayev	303-940-1613
Alan Duffy	720-748-2888
Andrew Waggoner	303-317-4194
Bob Fox	720-748-2888

# US Anesthesia Partners of Colorado Preparation for Surgery

---

## The Day Before Surgery

- Your anesthesia provider may try to call you the night before your surgery. They may call from a number you do not recognize, so please try to answer the phone number you listed as your primary contact number.

## Types of Anesthesia

- You will have time to speak with your anesthesia provider at the surgical facility on your day of surgery. We encourage you to provide input into our plan for your care. **If you have a specific question and would like to speak with an anesthesia provider prior to the day of surgery, please do not hesitate to call our office and we will connect you with someone.**
- After carefully considering the type of surgery, your overall health, medical history, lab results and your concerns and preferences, your anesthesia provider will talk to you about the type of anesthesia that is both the safest and best suited for you. Because the goal of anesthesia is to keep you safe and comfortable, sometimes there may not be an option for the anesthesia type you receive.
- These are the main types of anesthesia (for more information you can visit [www.asahq.org](http://www.asahq.org)):
  - **General anesthesia** provides a total loss of consciousness, meaning you will be fully asleep. You will not be aware of any pain or feeling during your surgery. This type of anesthesia uses a combination of IV medicine (given through a tube in your vein) and gases (that you breathe through a mask or breathing tube).
  - **Regional anesthesia** blocks pain to a specific area of your body. Your anesthesia provider will inject medication near a nerve and you may also get other medications through an IV to help you relax. A peripheral nerve block blocks a nerve or group of nerves and is common for surgeries on hands, feet, arms, legs or the face. Epidural or spinal anesthesia is given through an injection to block pain for a large area of the body such as the abdomen, hips or legs.
  - **MAC (Monitored Anesthesia Care or Conscious Sedation)** uses IV medication to help you relax and decrease pain. You will not be completely asleep, but you may sleep and will be very groggy.
- Your anesthesia provider will not leave your side during surgery. They will be right next to you to monitor you and your vital signs and make sure you remain safe and comfortable.

## What to Expect Before Surgery

- You will be asked to change into a hospital gown. No personal clothing or personal items will be allowed into the OR.
- The pre-operative nurse will review your history, medications and allergies and take your vital signs. An IV (a tube in your vein for medications and fluids) will be placed. If applicable, blood lab work or other tests may be conducted. Women of childbearing age may be screened for pregnancy.
- A support person may accompany you into the pre-operative area until it is time for surgery, at which time they will be directed to the waiting room.

## Additional Questions

- It is very important to us that you have a good experience with your anesthesia. After your surgery, you may receive a text or email asking you to complete a short survey. We value your feedback and use the data that we receive to make sure we continue to provide great care of our patients.
- **Billing:** Please note that anesthesia services are billed separately from the rest of your surgery. We do participate with most major insurance plans. Depending on your insurance you may have some out-of-pocket expenses. You can call our Billing Department at 303-377-7638 if you have questions or would like to make pre-payment arrangements.

Thank you for allowing us to be a part of your care.
