

POST VASECTOMY SEMEN ANALYSIS

- Semen check in 6 weeks and 12 weeks must be brought in the container that the office provided you at the time of the procedure.
- Use birth control until advised that it is okay to discontinue once the second semen sample is checked.
- There is a \$50 charge for each specimen check.
- Please call the office prior to dropping off the sample to verify that the doctor is available to analyze your specimen.
- Specimens are to be collected at home within the hour of dropping it off at the office.
