Telehealth by RingCentral Meetings

In advance of our upcoming telehealth session, you should have received a RingCentral invitation to your selected e-mail. Please consider your intended access point for our upcoming meeting as insurance requires that we establish a two-way video conversation.

Planning to Join by Windows PC:

Accessing RingCentral by way of Windows laptop PC is quite simple and can be done in two different ways:

1. Go to your e-mail invitation and click the “Join from PC, Mac, Linux, iOS or Android” link. Click on “Open Ring Central Meeting.” Follow the pop-up instructions to “Join Audio” by computer audio or by telephone call, as preferred. In the lower left hand corner, click on “Start Video.”
2. Browse to <https://meetings.ringcentral.com/join> and populate the 10-digit meeting ID. Click on “Open Ring Central Meeting.” Follow the pop-up instructions to “Join Audio” by computer audio or by telephone call, as preferred. In the lower left hand corner, click on “Start Video.”

Planning to Join by your Apple iPhone or iPad:

To join a meeting by your Apple IOS device requires a bit more preparation. In advance of our scheduled time, you should install the “RingCentral Meetings” app from your App store. Once installed, at the time of our scheduled call, you can then access your meeting in two different ways:

1. Go to your e-mail invitation and click the “Join from PC, Mac, Linux, iOS or Android” link. Click “Open” to automatically open the RingCentral Meetings app. At the bottom, toward the left, click on “Start Video” if necessary. In the lower left, click on “Join Audio” by computer audio or by telephone call, as preferred.
2. Open your RingCentral Meetings app and populate the 10-digit meeting ID, then click “Join.” At the bottom, toward the left, click on “Start Video” if necessary. In the lower left, click on “Join Audio” by computer audio or by telephone call, as preferred.

We have attached a YouTube link which provides a video summary of the (3) ways to join a Ring Central meeting.
