

Total Patient Care, LLC

Attention

Our Goal is to provide the best health care to all of our patients

To optimize this care, we ask that when you receive medical care or diagnostic testing outside of our office, you either:

1. Ask that provider to forward the results to this office;

OR

2. Ask that provider to give you a copy of the results to hand-deliver to us during your next office visit

By providing us with this information, we can create your full medical history and give you high quality care.

Examples of these results include:

- X-ray results such as mammograms, colonoscopies, EKGs and echocardiograms
- Blood work results ordered by another physician
- Vaccinations/immunizations such as pneumonia, shingles and/or flu shots
- Consultations completed by specialist, such as diabetic eye exams
- Medications prescribed by other healthcare providers

Thank You for your cooperation
