*We also offer
Hormone Replacement Therapy*

As the levels of hormones decline, so do our physical and mental capabilities. We lose our energy, vitality, strength, physique and health. By restoring these hormones to their youthful levels, it is possible to restore our zeal and energy as well as to strengthen and bolster our bodies and minds.

Hormonal Deficiency Symptoms Include:

- Weight Gain
- Loss of Muscle Mass
- Wrinkling and Thinning of the Skin
- Depression and Stress
- Loss of Sex Drive
- Fatigue
- Sleep Disorders

We offer CBD product formulas for pain relief, inflammation, sleep and relaxation, and by itself in different dosages to maximize benefits of CBD oil all in easy to use tinctures, capsules, or rub in formulas!

ABOUT CBD

Cannabidiol, more commonly known as CBD, is by far one of the most studied compounds of the 116-plus known cannabinoids found in industrial hemp.

Being a natural compound of the plant, it can comprise up to 40 percent of hemp. Unlike THC, CBD is non-intoxicating, which means it will not get you high.

CBD is often regarded as the single most crucial cannabinoid ever discovered. With on-going research, the list of uses continues to grow, giving more and more hope to those looking to enhance their overall quality of life.

Whether it's to maintain general well-being or becoming more proactive with a daily wellness routine, there are various ways in which CBD oil is useful.

Based on your needs and preferences, you can apply CBD and other cannabinoids through different methods. Your choice of administration can affect how CBD works with your body; common ways of administering CBD is through ingestion, sublingual, inhalation, and topical.

Your body's absorption of CBD from the application area into the bloodstream is known as its bioavailability – maximizing bioavailability means allowing more CBD to be readily available for bodily use. Taking CBD through various means changes its bioavailability; however, choosing the best method of use for your needs will help ensure that you'll receive the most support from properly sourced CBD.

Are You a Candidate for Laser Fat Reduction?

Model used for illustrative purposes and not an actual patient.

Are you a candidate? (Buy 1 area, get 2nd area 50% OFF!!)

With many body sculpting treatments out there, we use the SculpSure® system for our laser fat reduction treatments. If you have stubborn pockets of unwanted fat that just won't go away with diet and exercise, then WarmSculpting™ with SculpSure® is the perfect treatment for you.

WarmSculpting treatments are a great option for those who want excellent slimming results without the pain and hassle of more invasive treatments like liposuction or surgery. Instead, your WarmSculpting treatment uses measured and targeted laser heat energy to burn and destroy up to 24% of your fat cells.

Your body then eliminates these destroyed fat cells, mainly through your sweat and urine. This process is completely safe and FDA-approved. It won't leave any marks on your skin and there are no incisions, recovery time, or medications involved.

WarmSculpting with SculpSure is also a great option for treating your double chin, a stubborn bulge of fat that commonly forms under the chin.

If you're ready for a perfectly contoured figure, then call us at 205-823-0151.

The treatment is great for those who want to remove excess fat from their:

- **Abdomen**
- **Love handles**
- **Thighs**
- **Back**
- **Chin**

S'more Ice Cream Pie

Recipe by Chef John on allrecipes.com

Prep
20 min

Ready
5 hr 50 min

Ingredients:

- 1 1/2 cups finely crushed graham cracker crumbs
- 1/4 cup white sugar
- 6 tablespoons butter, melted
- 1 (28 ounce) package chocolate ice cream, slightly softened
- 2 cups miniature marshmallows, or enough to cover the top

Directions:

Place graham cracker crumbs into a bowl, add sugar and melted butter, and mix until well combined. Transfer mixture into a 9-inch pie dish. Gently press graham cracker mixture into the bottom and up the sides of the pie dish using a spatula. Pat the edge and inside of the crust smooth with your fingers.

Refrigerate crust until thoroughly chilled, at least 30 minutes.

Fill crust with chocolate ice cream using a small ice cream scoop. Smooth the ice cream with a spatula. Place a ring of mini marshmallows around the inside of the crust and cover top of ice cream with remaining marshmallows. Gently press marshmallows into the ice cream.

Freeze until very firm, at least 2 hours.

Use a propane blow torch to toast the marshmallows, moving the torch quickly to brown the marshmallows. Marshmallows should have small charred spots. Return to freezer to chill the marshmallow topping, at least 3 hours; slice and serve.
