

**Session 2 Moderator – Christopher Larson, MD**

**Other Topics**

11:05 – 11:15 am	Hip Arthroscopy Following Surgical Hip Dislocation – <i>Beck</i>
11:15 – 11:25 am	Complications Following Hip Arthroscopy – <i>Dienst</i>
11:25 – 11:35 am	Ligamentum Teres Reconstruction – <i>Philippon</i>
11:35 – 11:45 am	Diagnosis of Extra – Articular Pathology – <i>Bharam</i>
11:45 – 11:55 am	Soft Tissue Pathology Around the Hip – <i>Illizaliturri, Jr.</i>
11:55 – 12:05 pm	Athletes with Intra-Articular Hip Pathology and Athletic Pubalgia/Sports Hernia – <i>Larson</i>
12:05 – 12:15 pm	Postoperative and Rehabilitation Protocols – <i>TBA</i>
Break	Discussion
1:00 pm	Group departs on shuttle for Lab Session at SPRI Vail Hospital; 15-20 people need to be brought back to Cascade from hospital at 4:15 pm
1:30 – 4:30 pm	Lab Sessions at Cascade (Centennial Ballroom) and SPRI. Please check your station assignments in advance.

**Saturday, March 17, 2012**

7:00 am – 8:00 am	Cascade Ballroom, Breakfast served at hotel for group
7:35 am	Group departs on shuttle for Lab Session at SPRI Vail Hospital; 15-20 people need to be brought back to Cascade from hospital at 11:00 am
8:00 – 11:00 am	Lab Sessions at Cascade (Centennial Ballroom) and SPRI. Please check your station assignments in advance.

# Vail Hip Arthroscopy Symposium

Featuring Optional Cadaveric Lab

March 15–17, 2012

Vail Cascade Resort

Marc J. Philippon, MD and invited faculty

# Vail Hip Arthroscopy Symposium

March 15-17, 2012, The Vail Cascade Resort

## Thursday, March 15, 2012

- 6:30 – 7:45 am Registration desk open for attendees, Cascade Ballroom
- 7:00 – 7:45 am Registration/Breakfast, Cascade Ballroom
- 7:45 – 7:50 am Welcome – *Marc J. Philippon, MD*
- 7:50 – 8:00 am Hip Arthroscopy – Past, Present and Future – *Villar*

### Session 1 Moderator – Richard Villar, FRCS

#### Symposium: Imaging and Patient Selection

- 8:00 – 8:10 am Microfracture – *Steadman*
- 8:10 – 8:20 am Patient Selection – *Stubbs*
- 8:20 – 8:30 am Prevalence of Radiographic Hip Pathomorphology in Patients Presenting with “Hip” Pain – *Larson*
- 8:30 – 8:40 am dGEMRIC imaging of cartilage in FAI – *Beck*
- 8:40 – 8:50 am MRI of the Hip – *Ho*
- 8:50 – 9:00 am The Clinical Exam – *Martin*
- 9:00 – 9:10 am The Supine Position – *Byrd*
- 9:10 – 9:20 am The Lateral Position – *Ilizaliturri, Jr.*
- 9:20 – 9:30 am The Peripheral Compartment – *Dienst*
- 9:30 – 9:50 am Discussion and Coffee Break

### Session 2 Moderator – Victor Ilizaliturri, Jr., MD

#### Symposium: Labral and FAI Treatment

- 9:50 – 10:00 am Labral Anatomy and Function – *Domb*
- 10:00 – 10:10 am Labral Detachment and Rim Trimming – *Stubbs*
- 10:10 – 10:20 am Repair or Debride the Labral Tear – *Dienst*
- 10:20 – 10:30 am Labral Reconstruction – *Philippon*
- 10:30 – 10:40 am Allograft Reconstruction of the Labrum Using a Shuttle Technique – *Carreira*
- 10:40 – 10:50 am Labral Base Refixation: Biomechanical Considerations in Labral Repair – *Domb*
- 10:50 – 11:00 am Keys to Success in Treating Impingement and Labral Repairs – *Philippon*
- 11:00 – 11:10 am Treatment of CAM impingement – *O'Donnell*
- 11:10 – 11:20 am Arthroscopic Management of Pincer Impingement – *Sampson*
- 11:20 – 11:30 am Discussion

#### Break

- 1:00 pm Group departs on shuttle for Lab Session at SPRI Vail Hospital; 15-20 people need to be brought back to Cascade from hospital at 4:15 pm
- 1:30 – 4:30 pm Lab Sessions at Cascade (Centennial Ballroom) and SPRI. Please check your station assignments in advance.

### Session 3 Moderator – Allston Stubbs, MD

#### Symposium: Hip Instability

- 4:30 – 4:40 pm Function of Hip Capsular Ligaments – *Martin*
- 4:40 – 4:50 pm CT Reconstruction for Hip Dysplasia – *Stubbs*
- 4:50 – 5:00 pm Treating Instability in the Athletes Hip – *Domb*
- 5:00 – 5:10 pm Rotational Hip instability – *Stubbs*
- 5:10 – 5:20 pm Outcomes Following Hip Arthroscopy in Patients with Hip Dysplasia – *Philippon*
- 5:20 – 5:30 pm When to Close the Capsule – *Larson*
- 5:30 – 5:40 pm Rationale for Extensive Capsulotomy in Hip Arthroscopy – *Sampson*

#### Outcomes Following Hip Arthroscopy

- 5:40 – 5:50 pm Outcome in the Pediatric Patient – *Philippon*
- 5:50 – 6:00 pm Outcome in the Athlete – *Byrd*
- 6:00 – 6:10 pm Outcome in Older Patients – *O'Donnell*
- 6:10 – 6:20 pm Results of Revision Hip Arthroscopy – *Villar*
- 6:20 – 6:30 pm Factors Associated with Cartilage Injuries in the Hip – *Byrd*
- 6:30 – 6:40 pm Outcome Scores – *Briggs*
- 6:45 – 9:00 pm Meet the Faculty Reception, Vail Cascade Hotel in the Rocky Mountain Ballroom (invitations collected)

## Friday, March 16, 2012

- 7:00 – 8:00 am Breakfast, Cascade Ballroom
- 7:50 – 8:00 am The History of FAI – *Beck*

### Session 1 Moderator – Richard Villar, FRCS

#### Cartilage Injuries and the Ligamentum Teres

- 8:00 – 8:10 am Identification and Treatment of a Full Thickness Acetabular Articular Delamination Defect – *Sampson*
- 8:10 – 8:20 am Management of Chondrolabral Separation – *Bharam*
- 8:20 – 8:30 am Iatrogenic Cartilage Damage in Hip Arthroscopy – *Ilizaliturri, Jr.*
- 8:30 – 8:40 am Ligamentum Teres – The Forgotten Ligament – *Villar*
- 8:40 – 9:00 am Functional Description of Ligamentum Teres – *Martin*
- 9:00 – 9:10 am Clinical exam of Ligamentum Teres – *O'Donnell*
- 9:10 – 9:30 am Discussion and Coffee Break

### 9:30-10:45 am Live Surgery – Moderator – Richard Villar, FRCS

- Break Discussion – Case Presentations
