To my patients,

Taking care of patients with scoliosis and spine deformity is something I am very passionate about. Over the last 20 years, there have been incredible advances in the surgical treatment of spine surgery that have greatly improved how we operate and our surgical outcomes. I ask that my surgical patients carefully complete the questionnaires at each visit. We use your anonymous responses from questionnaires to incrementally improve the surgeries we offer over time. With your permission, sometimes we may take photos and videos during your clinic visit.
