Mostafa Borahay MD, PhD

Associate Professor of Gynecology and Obstetrics and Director of Minimally Invasive Gynecologic Surgery at Johns Hopkins Bayview Medical Center, Baltimore, Maryland, USA

The most common tumors of the female reproductive system, fibroids are thought to affect the majority of women at some point during their reproductive years. This text from leading fibroid experts looks at the latest evidence on how the problem impinges on reproduction and the most up-to-date management and treatment options available to help patients with fibroids hoping to conceive.

Print versions of this book also include access to the eBook version with links to procedural videos.
