Annual Well Visit Billing

We are so glad you scheduled your Annual Well Visit with us. Your insurance company often covers the cost of one preventative visit every year. The purpose of this visit is to review your history and medical risk factors to ensure that you are up to date on all recommended immunizations, screening tests, and wellness habits.

Your Annual Well Visit includes:

- Screening symptom review
- Status of chronic medical condition review
- Medication review, including vitamins and supplements
- Immunization record review
- Lifestyle habits (alcohol and tobacco use, exercise, etc.)
- Risk factors (family history, lifestyle, etc.)
- Complete physical examination

Your Well Visit focuses on prevention and wellness; and does not cover evaluation of new medical problems. Sometimes, new complaints or problems will arise during the Well Visit. When this happens, your provider may request you schedule an additional office visit to properly assess the problem. If you request the problem to be evaluated during your Well Visit, you will be billed for an additional Evaluation/Management Visit, which usually requires a co-pay. If there is a more urgent problem (e.g. chest pain, abdominal pain), your provider may suggest the Annual Well Visit be postponed.

If you have any questions, please do not hesitate to call our billing department at 609-896-9190.

Thank You!
