

# Dr. Lori Nuzzi

NUZZI CHIROPRACTIC LIFESTYLE WELLNESS CENTER | 12 GOFFLE ROAD | MIDLAND PARK | (201) 447-2570 | WWW.NUZZICHIRO.COM

## **RELIEVE, REHABILITATE, RENEW. THESE THREE R'S MAKE UP THE CORE OF NUZZI CHIROPRACTIC LIFESTYLE**

Wellness Center's philosophy and mission. All Nuzzi Chiropractic team members are state credentialed, licensed and certified experts in their field. They are dedicated to providing excellent service to patients of all ages so they can experience relief from pain and discomfort, rehabilitate from injury, or simply renew their commitment to a healthier, happier lifestyle. "It is a way of life for me and my staff," says Dr. Lori Nuzzi.

Dr. Nuzzi and her team blend chiropractic care for adults and children with rehabilitative physical therapies, therapeutic and sports massage, guided exercise routines, medical weight loss and nutritional counseling programs to provide the ultimate personal health and well-being experience. "All of these solutions are holistically entwined," Dr. Nuzzi says. She firmly believes in educating patients about the body's holistic interrelationships, stating "It's a passion of mine." What sets Dr. Nuzzi apart is her results-driven approach to care. "The focus is always on the patient," she states. Dr. Nuzzi credits her staff – an Associate Chiropractic Physician, massage therapists, a lifestyle educator/personal trainer, a medical assistant, and administrators – with the success of the practice.

Dr. Nuzzi graduated with honors from New York Chiropractic College. She is one of a select few Certified Pediatric and Prenatal Chiropractic Physicians. She has expertise using the Webster Breach Turning Technique that has helped hundreds of expectant mothers safely give birth. Dr. Nuzzi is a nationally recognized sports chiropractor who works with the World Class FC soccer academy U13/14 boys' team. She also works with school-based basketball, football, hockey, dance, cheer, and soccer teams. She is a member of the New Jersey Chiropractic Association and the International Pediatric Association.
