HUTTON KLEIN
HK
DERMATOLOGY

We offer two approaches....
We have a novel approach to Kenalog Injections
virtually painless with a very good success rate
or

Superficial Radiation Therapy (SRT) for Keloids!

Studies show there is a 90%+ success rate
with excision of the keloid followed by one to three days of SRT Treatments.

\$50 Consultation applied to treatment!

It's STILL Summer Season!
Keep Lovin' Your Skin!

Protect your skin from the inside-out!

Heliocare!

ADVANCED FORMULA: Nicotinamide (vitamin B3). Helps improve the appearance of skin while acting as a second form of protection with your sunscreen!

HOW TO **SPOT SKIN CANCER™**

USE THIS INFORMATION TO CHECK YOUR SKIN REGULARLY

1 in 5 Americans will be diagnosed with skin cancer in their lifetime.

ANYONE
CAN GET SKIN CANCER,
REGARDLESS OF SKIN COLOR

THE ABCDEs OF MELANOMA

What to Look for:

Melanoma is the deadliest form of skin cancer. However, when detected early, melanoma can be effectively treated. You can identify the warning signs of melanoma by looking for the following:

SKIN CANCER SELF-EXAMINATION

How to Check Your Spots:

Checking your skin means taking note of all the spots on your body, from moles to freckles to age spots. Skin cancer can develop anywhere on the skin and is one of the few cancers you can usually see on your skin. Ask someone for help when checking your skin, especially in hard to see places.

 If you find any spots on your skin that are different from others or are changing, itching, or bleeding, make an appointment to see a board-certified dermatologist.
