PerioLase MVP-7 Front View

- **Ceramic Cleaver Storage**
  Convenient cutout in the handle to store the ceramic fiber cleaver

- **TrueFlex® Handpiece**
  Light, balanced design for comfort

- **TrueFlex Handpiece Holder**
  Stores the handpiece when not in use

- **Printer**
  The PerioLase MVP-7 has an internal printer, allowing you to print treatment records for each individual patient. The paper is fed through the tall vertical slit

- **Fiber Port**
  The FiberFlex fiber is connected here

- **Power Meter**
  Unique safety feature to ensure power output matches device settings

- **Laser Stop**
  If this button is pressed during operation, the laser will immediately stop delivering energy

- **Key Switch**
  When the key is in the vertical position, the unit is off. Key in the horizontal position indicates ‘on’

- **Storage Cart**
  Bottom of the PerioLase MVP-7 conveniently stores extra fibers, handpieces, fiber stripping tool, safety eyewear, and other accessories

- **Hidden Attachments**
  There are 4 wing bolts that attach the top of the PerioLase MVP-7 to the storage cart

PerioLase MVP-7 Additional Benefits

- **Procedure-Controlled Menu**
  Appropriate parameters pre-set for 20 procedures, just touch and go for clinical application

- **Built for Patient Safety**
  Continuous display of total energy delivered to help you maintain biological tolerance

- **Multi-Variable Pulsed (MVP-7)**
  Better control of laser-tissue interaction with 7 different pulse durations for maximum control over cutting speed and hemostasis

- **No Special Power Requirements**
  Uses conventional AC power outlets

PerioLase MVP-7 Rear View

- **Wired Footswitch Hangers**
  Convenient storage for the wired footswitch

- **Laser Warning Logotype & Label**
  Required by law!

- **Interlock Plug**
  The PerioLase MVP-7 will not turn on without the interlock plug inserted

- **Wired Footswitch Connection**
  Plug in footswitch here

- **Do Not Freeze!**
  Your PerioLase MVP-7 does not like to be cold, and will break if frozen
