

SAVE TEETH WITH TRUE REGENERATION

Gum disease is the number one cause of tooth loss. The LANAP® protocol helps keep your teeth – and helps your mouth become healthier.

Imagine if we could re-grow parts of our body like the salamander... now, we can.

First ever FDA clearance within medical or dental field for REGENERATION

Repair is not regeneration. Regeneration is return to normal architecture and functional health, repair is not.

Periodontal regeneration - true regeneration of the attachment apparatus (**new cementum, new periodontal ligament, and new alveolar bone**) on a previously diseased root surface when used specifically in the LANAP® Protocol. 510(k) 151763

TRUE REGENERATION BY THE NUMBERS

85%

of Americans have gum disease

#1

cause of tooth loss is gum disease

10

years shorter life if you lose your teeth

2000+

LANAP Regenerative Specialists

True REGENERATION™

Regrows all three of the parts you need to keep your teeth – the same three parts that gum disease destroys.

NEW CEMENTUM
Cementum is hard surface layer of the tooth that anchors the periodontal ligament and helps it attach firmly to the tooth.

NEW ALVEOLAR BONE

Alveolar bone is the bone in your jaw that holds the teeth. It can vary in density (how strong it is), and can be eaten away by gum disease.

NEW PERIODONTAL LIGAMENT

Periodontal Ligament (PDL) is a group of specialized connective tissue fibers that connect the tooth to the bone to hold it in place.

TRUE REGENERATION BENEFITS

DENTISTS...

Help more patients
patients in your practice have gum disease

Expand treatment options
add a proven gum disease treatment option

Minimally invasive
more comfortable treatment option

& PATIENTS

A healthier mouth
gum disease is also linked to other diseases

Keep your natural teeth
keeping your teeth is linked to a longer life

Increased confidence
smile bigger without the bad breath from gum disease

World's First & **ONLY** Scientifically Proven† FDA Clearance for ***True Periodontal Regeneration™**

†Only FDA clearance for True Periodontal Regeneration with independent, peer-reviewed scientific proof on the LANAP protocol. *Full-mouth True Periodontal Regeneration
