

**RADIANT SKIN DERMATOLOGY
AND LASER, PLLC**
NEW YORK, NEW YORK

American Board of Dermatology

**WHAT IS THE OVERALL
GOAL OF YOUR PRACTICE?**

Our goal is to provide tailored dermatologic care to our patients—it's not a one-size-fits-all approach. We spend a lot of one-on-one time listening to our patients so that we can clearly understand their needs and develop goals that are achievable so they will be happy.

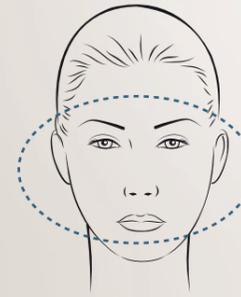

**HOW DO YOU APPROACH FACIAL
REJUVENATION USING FILLERS?**

My patients most often tell me that they don't want to look different, but that they want to look their best. When rejuvenating the face using fillers, I pay special attention to the patient during the procedure to be sure they are comfortable with the changes. I am always aiming to deliver the beautiful, natural-looking result that the patient wants.

**DR. ADEBOLA
DELE-MICHAEL**

**QUICK AND EFFECTIVE
PROCEDURES**

One of Dr. Dele-Michael's gifts is that she can study a person's skin and know right away which areas or issues need to be addressed. "I can't always explain it to people, but my skills and expertise in dermatology have made it clear to me that this profession is what I was made to do," she says. "To give my patients the quality of care and full spectrum of services they deserve, we offer everything from different types of chemical peels and a range of aesthetic injectables to a variety of lasers for hair removal, rejuvenation of fine lines and wrinkles, acne scarring, tattoo removal and more. Patients really enjoy the results of these quick, effective procedures."

A MODERN APPROACH TO PATIENT TREATMENT

Catering to a patient population that is becoming increasingly savvy with social media, Dr. Dele-Michael frequently treats patients who bring in pictures of themselves and comment that they don't like what they see. "A lot of my patients are using digital methods to communicate with friends, family and even colleagues," she says. "They are able to see what their facial expressions look like as they are communicating and aren't satisfied with them—maybe they've developed what looks like an angry scowl or they have a divot they want to fill out. It's not necessarily static wrinkles nowadays, but more dynamic lines that they want to soften. We have access to a vast variety of noninvasive and minimally invasive treatments that have the power to ease these concerns with little to no downtime and excellent results."

"WHEN YOU REALLY LOVE WHAT YOU DO, IT DOESN'T FEEL LIKE WORK"

WITH TWO EASILY ACCESSIBLE OFFICES LOCATED NEAR CENTRAL PARK IN NEW YORK CITY, DR. DELE-MICHAEL'S COMFORTABLE PRACTICE ENVIRONMENTS MAKE PATIENTS FEEL RELAXED KNOWING THAT THEIR SKIN AND HEALTH IS IN GOOD HANDS. A MEMBER OF THE AMERICAN ACADEMY OF DERMATOLOGY AND EDUCATOR AT MOUNT SINAI SCHOOL OF MEDICINE, DR. DELE-MICHAEL DELIVERS RESULTS THAT MAKE PATIENTS LOOK AND FEEL LIKE THE BEST VERSIONS OF THEMSELVES.

**WHICH TYPE OF PATIENT DOES
YOUR PRACTICE CATER TO?**

We offer services that cater to the entire family, but we most often treat working professionals, including busy moms and aging adults. These individuals are conscious about the way they look and want to make sure they're projecting the best images of themselves while also preserving their youth as long as possible.

**HOW DO YOU HELP EDUCATE THE
PUBLIC ABOUT YOUR FIELD?**

I serve as a member of the Media Relations Work Group for the American Society of Dermatologic Surgery (ASDS), which involves educating the public on the different types of invasive and surgical procedures that many dermatologists are certified to perform.

**HOW DOES THE SKIN
REFLECT OVERALL HEALTH?**

A balanced diet and exercise is so important because when you're healthy, your skin will glow. The skin, hair and nails serve as windows to the internal organs and reflect the total health of the body. They can tell us a lot about what's happening to a patient internally.

**HOW DO YOU SPEND YOUR TIME
WHEN YOU'RE NOT WORKING?**

I love spending time with my son and my husband, whether it's hanging out at the park, traveling or trying a new restaurant. There are endless things to see and do in New York City and I discover something new every time I go out.
