

VASCULAR INTERVENTIONAL & VEIN ASSOCIATES

CORONAVIRUS – COVID-19

PRECAUTIONS WE ARE TAKING TO KEEP PATIENTS AND STAFF SAFE

- We are screening patients by telephone prior to scheduling a visit
- If you are experiencing fever, cold, cough or flu-like symptoms, please do not come to the office. Call our office at 772-567-8482 to reschedule your visit or for alternative recommendations.
- Our healthcare providers are performing TELEMEDICINE virtual visits with established patients who can safely be evaluated through this medium of communication.
- Patients who must be seen in the office will have their temperature taken, they will be asked to sanitize their hands, and will fill out a COVID-19 screening questionnaire prior to entering the patient visit area.
- Only 6 patients are allowed in our waiting rooms. Chairs are separated per social distancing guidelines
- To reduce the potential of virus transmittal, all magazines have been removed from the waiting room
- For your safety our office surfaces, chairs and door handles are disinfected daily.
- Our healthcare providers will wear PPE when attending to patients
- We are closely monitoring guidance from local, national and global health organizations, and will continue to update our precautionary measures to minimize risks to our patients and staff.
