November 20, 2020

Dear Patient:

At Princeton Sports and Family Medicine we are working to keep our office as safe as possible for our patients and staff. Please be advised of the following, effective immediately:

All patients will be contacted by telephone 1-2 days prior to their scheduled appointment times to review pertinent healthcare information and for a Covid-19 screening. If you are unable to speak with our staff when called, please call our office at 609 896-9190 to speak with someone regarding your screening, or to let us know an appropriate time to call you back. **PLEASE BE AWARE, that if we are unable to contact you and complete the Covid-19 screening, your appointment will be cancelled, and you will need to reschedule.**

Patients are only permitted to bring another person to their visit if they require physical assistance to walk into the facility, if they are unable to communicate with their provider, or if they are a parent accompanying a **minor child**. **Any person accompanying patients must also speak with our staff to complete a Covid-19 screening prior to the visit, otherwise they will be asked to leave.** In addition, we ask that anyone else accompanying the patient that is not needed for the patient visit, to please wait in their vehicle during your appointment

If you develop any new symptoms or exposures AFTER speaking with our screening staff, please call our office immediately at 609 896-9190.

In addition, all of our providers are available for virtual telehealth visits to help with your health care needs.

We thank you in advance for your cooperation as we navigate through the current challenges.
