★★★★★ Expert Dentistry, Covid-safe office — ARTHUR P. (Patient since 2016)

In addition to his always-expert dentistry, Dr. Rosenberg has made his office into a Covid-safe zone. You enter and leave the office directly from outside - no lobbies, halls, elevators or steps. The staff wears complete PPE and sanitizes the chairs, furniture and equipment in between each patient. Dr. Rosenberg has installed multiple high-tech air filters all around the office - I counted at least 5 - and plastic shields between the office and patient areas. I am completely paranoid about this virus and go almost nowhere, but my wife and I felt safe with Dr. Rosenberg. Our adult children also come to Dr. Rosenberg and have the same sense of safety.

★★★★★ Hazardous to your health? — BRIAN H. (Patient since 2007)

Upon entering the office I was surrounded by a Hazmat team in full hazmat attire. For some reason I must be viewed as \*hazardous\* material, seeing as every team member kept their distance the entire time I was in the office. To be candid the "greeting" was not altogether unusual as most people respond in similar fashion to my \*infectious\* sense of humor. This difference this time, though, was the hazmat suits and the fact that glass walls were installed to insure \*minimal\* contact with me-and were taken down as I was leaving the office.

Dr Rosemberg I have enjoyed your practice, however I was very surprise to see that your prices have increased 3 1/3 times the price you charge mi last time for the same work, it was \$85 just over 2 years ago. This time the charge was \$300?? I didn't have cash when I left your office. Is this price real? Or a mistake? How much will it cost me to reline the bridge? Cristina McGillicuddy

Dr. Rosenberg and his staff are the best! I've been going to Dr. Rosenberg and his team for years. ★★★★★ Simply the BEST — JAY F. (Patient since 2016)

Just as at every other appointment I have had here I received a level of care and attention by seasoned professionals who are happy to work here. A level which I have never experienced at another dental practice and I've been going to dentists for over 50 years. I'm also employed in the dental industry and often meet with a dozen dentists weekly. Dr. Rosenberg's practice is a showcase of technology and offers the ability to manufacture crowns with a CEREC machine which can produce a crown in 15 minutes, while you wait. In this busy world this means only one visit to do what two or three would normally do. I left this practice confident I received the best care possible. Dr. Rosenberg and his team including Elina, Lisa, Dina and Caroline are an amazing group who work together as a well oiled machine. They accomplish this despite the hurdles and challenges inherent in a multifaceted dental practice in a large city. Dr. Rosenberg and his staff understand all of this and it shows. You will feel the warmth and welcoming personality of everyone here as soon as you arrive. Dr. Rosenberg encourages questions and offers plain English explanations, often including drawings and demonstrations, as he inevitably puts you at ease. You simply will not find a more intelligent and caring dentist.

★★★★★excellent dentist — DR DANIEL G. (Patient since 2016)

Dr. Rosenberg was my dentist for 3.5 years until I moved from the area. He offers the perfect combination of what I was looking for in a dentist. He's been practicing for many years, so he has a lot of experience and great old-school knowledge of anatomy, physiology, and good dental care. Yet he also has state-of-the-art equipment and keeps up on the latest techniques. I've been to several dentists as I've moved from place to place in my life, and Dr. Rosenberg is the best.

☆☆☆☆☆ Misinformed — TYOKA D. (Patient since 2018)

Dr. Rosenberg and his Dental Assistant are amazing. You definitely will feel comfortable in his care. He is very knowledgeable and ensures that all of your questions are answered. He is very thorough and personable. I laughed so hard at some great comedy he displayed. The only reason I rated this survey a 3 instead of a 5 is that I was misinformed by his receptionist (Dena). I am a new patient, when calling to make my appointment I asked was Dr. Rosenberg a participating dentist with Metlife and was told he is. My first visit uncovered an issue that a root canal was needed. I was referred and sent to a Endodontist, same day (great service) Second visit I was in for preparation of my crown. I was experiencing some soreness so Dr. Rosenberg installed the post and asked that I make an appointment to come back to complete the crown. This is when my visit took a change for the worse. I was informed by Dena that my next visit will cost me about \$2800 to complete the crown work. This was alarming to me since this was just my 2nd dental visit for 2018. I was told that I only had about \$750 left in insurance benefits. Again this was very concerning because I have used Metlife dental coverage for the last 18 years and never experience my coverage depleting. I was told by Dena that I used up most of my coverage for the year in 2 visits. I told Dena that something strange was going on and asked her how much was billed by the Endodontist, I also asked was the Endodontist apart of the Metlife Network which Dena said YES. That evening I contacted Metlife and surprisingly found out the following... Dr. Rosenberg nor the Endodontist are apart of the Metlife Dental Network and that I had been charged out of Network prices. I made contact with Dena to inform her of my findings and was told by Dena again that both Dr. Rosenberg and the Endodontist were apart of the Metlife network. Dena suggested that the rep was from out of the country reading me a incorrect script. NOT TRUE..

★★★★★ I just found my new Dentist. — GEORGE-ANN S. (Patient since 2015)

I came to see Dr. Rosenberg as a new patient with an emergency situation. I had a crown come loose and Dr. Rosenberg put it back and repositioned it. I can't tell you how happy I am with the results. I've always hated the crown because I felt like it stuck out but since Dr. Rosenberg repositioned it, I love my smile again. I've seen three other Dentists over the years for the same crown and none of them have EVER repositioned it this way. In addition, Dr. Rosenberg was friendly and knowledgeable. He explained everything to me like no other Dentist ever had. His Dental Hygienist and office staff were also very warm and welcoming. I am glad my crown came loose because it gave me my smile back and lead me to my new Dentist!

★★★★★I asked the DR about braces — AYELET K. (Patient since 2009)

I asked the DR about braces. While I was discussing with him, Elina confronted me and pipes up that in the past it had already been recommended to me. I found her to be rude and unprofessional during this visit, especially with the medications incident. I was quite surprised and disappointed during this visit as I'm usually very pleased with Elina and the overall service. Elina said she would check if braces are covered by my insurance and a week later, she still hasn't gotten back to me.

My cleaning was excellent--but I've come to expect that from Elena--and the xray machine is so much more comfortable than others I've experienced with bending films cutting my gums. Jokes and green apple gloves make check ups with Dr. Rosenberg almost a treat. But know that I have never minded going to the dentist...it is just that now I feel I'm in the hands of caring professionals.

★★★★★ It truly was a great experience I would not change... — KATY B.

It truly was a great experience I would not change anything. The hygienist that worked on my teeth was very gentle, although I was a nervous wreck and almost had a breakdown in the chair!

My 4yr old daughter had a great visit, she wasn't uncomfortable and didn't experience any pain. There isn't anything that needs to be changed. Thank you so much! She looks forward to her next visit.

★★★★★ Dr — TAMMY S.

Dr. Rosenberg is the greatest! He went above and beyond to make sure I was satisfied during my last appt. He didn't do a rush job on me even though it was getting late (close to 6 pm)so I found him to be a very patient and humorous dentist. This is very refreshing because my prior experiences with dentists were nightmarish! Also, I give praise to his staff as they have always made me and my family feel like their family!

★★★★★ When Albert Einstein first theorized harvesting... — ROLANDO G.

When Albert Einstein first theorized harvesting the energy released by a stimulated light particle, he never imagine that the field of dentistry would embraced, and benefit, from his light stimulated emission theory almost a century later. I was amazed by the Waterlase MD LASER technology; however, what impressed me the most was Dr. Rosenberg's explanation and implementation of this technology. Dr. Rosenberg is a true Master confident with his wisdom and in control of his discipline.
