

TEXAS ORTHOPAEDIC ASSOCIATES

A DIVISION OF OrthoLoneStar

To our patients,

Happy holidays – we hope you are having a safe and wonderful season of celebration with your loved ones. When it came time to select your partner in caring for you and your family, you chose Texas Orthopaedic Associates. That trust and belief in our practice is what has always driven us to make patient-centered decisions to bring the best possible care to the Dallas-Fort Worth Metroplex.

We, the physicians and employees of Texas Orthopaedic Associates, want to make you one of the first to know that we are taking the next step in our evolution by founding the new premier Orthopedics Practice in Texas and in the nation – OrthoLoneStar.

Please let us know if we can answer any questions for you about this change, and especially if you have any concerns. We look forward to continuing your care for decades to come!

FAQ:

Why are you launching OrthoLoneStar?

By selectively joining quality physicians, we can influence and improve medical practice through **Independent, Physician Led** healthcare. We will be able to share resources, expertise, and best practices to define clinical excellence and improve orthopedic outcomes.

When will I notice a change?

You should see some changes in our website, lobby design, and other paperwork starting now! You will notice our new name start to pop up on your Explanation of Benefits (EOB), appointment reminders, statements, and medical records as we launch in early 2021.

How did you pick the other groups to join together with?

We identified the top performing groups in Texas who share our core values and beliefs and joined them in launching OrthoLoneStar so that we can provide the highest quality orthopedic outcomes at the best value across the state.

Are you changing your name?

Our legal name has changed to OrthoLoneStar, which is what you will see when we file your insurance, collect co-pays, or work on joint projects with our partners. However, our legacy and our history here is as Texas Orthopaedic Associates, and that isn't going anywhere. We relate it to a marriage – we changed our last name to “A Division of OrthoLoneStar”, and together we will do amazing things we might not have done alone ... but we are the group you have always known, with the personality you have always trusted.

What are the advantages for the patient?

You can receive seamless care from any of our divisions across the state. We will be able to offer cutting edge access to the newest therapies, most advanced clinical pathways, and most effective patient care as an independent physician group, not beholden to investors or far-away corporate offices. Our owners are our physicians – which is how medicine should be practiced.

Where can I get further information?

First and foremost – ask any of us! This is a great step for the practice, and we would love to discuss it with you. Secondly, please visit our top-level website at www.ortholonestar.com or our division website at www.txorthopaedic.com.
