

ATTENTION PATIENTS

RE: Well Woman Exam

If you are here for a scheduled preventive medicine visit, this visit will be submitted as a preventive exam to your insurance. Depending on your health plan's policy, your insurance may or may not cover this visit. Note all insurance companies cover well visits; or, you may have a maximum annual limit for well benefits that is less than our charges.

If during the course of your preventive exam, the physician addresses and documents a problem-related issue (i.e. vaginitis, urinary tract infection, pelvic pain, depression, fibroids, acne, weight gain, decreased sex drive etc.), you may also receive an office visit charge as well. In addition, your insurance may require you to pay a co-payment for today's visit because of the well-visit and a problem visit charged on the same day. Depending on the scope of the problem, a follow up visit may be required to address additional issues.

We have all female practitioners. A chaperone will be provided for exam only upon request. We use the patient portal to communicate results to patients. Please make sure you have signed up for the portal. You will receive an email when your results or messages are posted. Please check the portal when you receive an email notice of a portal update.

Lastly, the physician assign codes according to the services she provides. The doctor cannot alter the coding submitted to your insurance in order for your insurance carrier to make a payment.

If you have any questions, please contact our billing department at 301-330-7002 or kfortune@rockvillegynecology.com

By signing below, I acknowledge that I have read the information provided to the best of my ability and understand that Rockville Gynecology LLC is not accountable for any contractual agreements between the patient and their insurance.
