

# PIPELINE PHYSICAL THERAPY

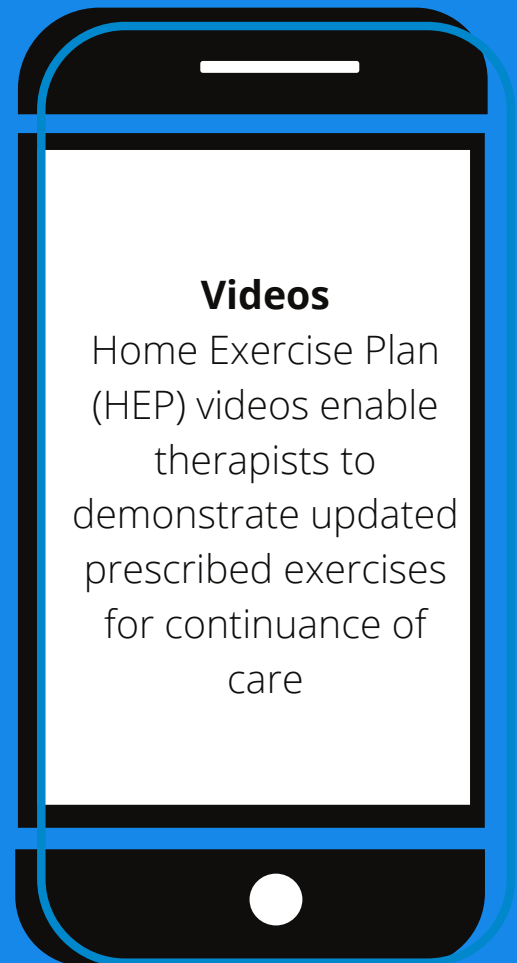

Telehealth for Physical Therapy Improves Access to Care

**STAY CONNECTED.  
STAY ON TRACK.**

**Video Conference**  
virtual face time with patients allows clinicians to document important metrics, such as range of motion.

Pipeline Physical Therapy is ready to implement Telehealth solutions to address the needs of our patients during this time when visits to our clinic may not be an option, due to the evolving restrictions surrounding the novel coronavirus (COVID-19). Telehealth is yet one more step in our mission to increase access to quality healthcare in your home!

**SCHEDULE NOW AT
