

Larry

Larry is more than a spokesperson for our business, he is truly an amazing client. He joined for many of the same reasons as the hundreds of others that have joined EMP 180° Weight Loss™.

He wanted to become healthier through the benefits of weight loss. As a father and someday a grandfather (😊 10+ years away) he wanted to be more active, play sports with his son and daughters, simply to be healthier! Larry loves running and he wanted to run faster, further and, with less joint pain. After losing 37 pounds, Larry will tell you he can do all he hoped for and in even more than he could have imagined. Larry's results can be seen visually (sorry WMAL for the need to shoot new marketing shots), and perhaps more important by the improvement in his body composition numbers.

Here are just a few:

Body fat percentage – down by more than 29%

Visceral Fat – internal/organ fat down 40%

Metabolic Age – Down 13 years, which creates many benefits.

We are honored and pleased to have Larry as a client and ambassador of EMP 180° Weight Loss – he is now at his EMPowered Weight® and it is our goal to help Larry stay there forever.
