RESTON SURGERY CENTER

IMPORTANT INFORMATION:

Patients need to independently register online with the Surgery Center. Follow the instructions on the Patient Registration Guide to complete the One Medical Passport account.

YOU MUST REPORT TO THE FACILITY (1 ½ HOURS IF ANESTHESIA IS GENERAL/LMAC) OR (1 HOUR FOR LOCAL ANESTHESIA) PRIOR TO YOUR SURGERY TIME.

Please be available earlier for standby cases.

Fasting: Unless advised otherwise by your physician, **DO NOT EAT OR DRINK ANYTHING AFTER MIDNIGHT THE NIGHT BEFORE SURGERY.**

Immediately following the surgery, the surgeon will speak to your family if they are present. You will then be in recovery for approximately one hour. You will be evaluated regularly and released when you have fully recovered from the effects of anesthesia. In all cases, except when the procedure is done under local anesthesia, **A DRIVER IS REQUIRED FOR YOUR DEPARTURE.** This is due to the effects of anesthesia and cannot be avoided.

Our staff is available between the hours of 9a.m. to 5p.m. to answer questions regarding surgery. Most issues are addressed during your pre-operative interview with the pre-op screening nurses.
