3D Fetal Ultrasound

See your baby more clearly as you add third dimensional definition. See Photos of your baby as it sleeps.

4D Fetal Ultrasound

Not only are you able to see your baby in 3-dimensional images, but now you can watch your baby in real time and see what movements and faces it makes while sleeping. Sometimes we may be lucky enough to catch him/her stick out their tongue or even suck their thumb!

“Our goal is to ensure that your ultrasound experience is a unique and special time during your pregnancy.”

HD Fetal Ultrasound

This is state of the art technology to actually see what your baby sees inside the uterus. Get up close features to see just what your baby looks like before he or she is even born!

All 3D/4D/HD packages will include digital images sent directly to your phone for your personal keepsake and a surprise gift!
