We are so pleased to be able to continue providing Leeward women with the highest quality OB/GYN medical treatment and cosmetic procedures. Women are always our total concern. Our collaborative practice of all-female, board-certified physicians provide treatment for gynecological problems including pain, bleeding, urinary leakage, and menopause, as well as safe in-office procedures for vaginal rejuvenation. Our OB/GYNs also provide pregnancy care, birth-control options, family planning and well-woman care. And, we offer our expertise to help you look and feel better with simple, safe cosmetic and laser procedures including body contouring with SmartLipo and noninvasive SculpSure for permanent fat removal.
