Dear Bob,

We received this note last week from Mr. R . I was so impressed with his comments that I had it laminated for you. His first paragraph replicates what I have felt all along. I left his comment card in the full laminated sheet size so that you could either leave it, or cut it down to your desired size. I like to share all comments with the doctors who author articles for us. Ninety nine percent of all comments are very positive, but this one is above and beyond the norm. Congratulations, take in the moment and know that you are making a difference.

All the best,

Rick

Dr. John F. R

Happy to see Dr. Bob Lebowitz
is still in the trenches.

The man deserves a Nobel Prize
for his Triple Honore Blockade.

IN 1990 AFTER REFUSING SURGERY
AND RADIATION, WITH A PSA BQ1
AND A Gleason 8 9 (5+4) I
flew out to see him.

SINCE THEN I HAVE HAD ONLY
ONE OTHER 13 mo. Repeat of
THE THB, a few years ago.
PSA STILL 11. T, however ↓

OTHERWISE - A-OK
