Why Refer To Our Physical Medicine & Rehabilitation (PM&R) Physicians At RehabOne Medical Group?

Our team of physiatrists focus on treating chronic pain patients by diagnosing the cause of the pain and developing a comprehensive treatment plan. We offer a whole-person approach to our patients, often involving the discussion of nutrition, sleep issues, and more. Outcomes are improved when patients are referred to our physiatrists closer to the time of injury or surgery as we are able to help them regain function to return to their activities of daily life and/or work. We offer over 100+ years of combined experience in evaluating and treating injured workers. RehabOne has adjusted over the years to accommodate patients and referral sources, with the goal of meeting their needs in the ever changing California Workers' Compensation system. We now offer tele-health visits which has improved our efficiency for patients and increased our ability to support our greater communities throughout California.

Our Comprehensive Services Include:

- **Consultations & Treatment**
- **Second Opinions**
- **Medical Legal Evaluations**
- **Functional Restoration Programs**
- **Pain Psychology**
- **Physical Therapy**
- **Work Hardening/Work Conditioning**
- **Acupuncture**
- **Chiropractic Care**
