

PRE AND POST CARE INSTRUCTIONS VENASEAL

Pre Treatment

- The day of your treatment please:
 - Shower and wash your legs thoroughly.
 - Do not put cream or lotion on your legs.
 - Do not wear perfume or cologne.
 - Please wear loose fitting slacks or sweats the day of your procedure.
- You will be in the office for a total of approximately 1.5 hours after you arrive.
- We encourage you to have a small meal 1 to 2 hours prior to your procedure and to stay well hydrated before your arrival time.
- Start taking Aspirin 81mg the day before your procedure.
- You will need to take Zyrtec the day before your procedure and continue taking daily for 1 week.
- (OPTIONAL) Begin applying Dermaka Cream to the abnormal veins 5 days prior to starting treatment to help decrease bruising and discoloration until resolved. This can be purchased at Eterna for \$32.

Post Treatment

- Moderate discomfort may be present, with the most discomfort occurring up to one week following the procedure as the leg heals.
- If you have discomfort you may take an anti-inflammatory medication three times a day for up to seven days.
- Get up to walk every 60 minutes while awake.
- No standing for more than 5 minutes after your procedure for the remainder of the day.
- Please do foot exercises by simply flexing the foot at the ankle and pulling your toes toward you.
- Sun exposure is to be avoided until any pigmented areas have faded. Please use SPF 30 or greater to these areas when sun exposure is unavoidable.
- If it is necessary for you to travel for an hour or more, please stop and walk around for 10 minutes.
- Avoid prolonged standing for the first week and elevate your leg(s) at least 3 times a day for 5-10 minutes.

Please contact your provider immediately if you notice any blistering, rash, crusting, pus, tenderness or any other changes that may concern you.
