

Comfort & Convenience for Patients At Our INFUSION SUITE

Neurology Center of Las Vegas has a long standing reputation within the community for providing excellent care. Our infusion suite provides personalized care for your patients in a peaceful environment. Our physicians are on site in the event they are needed. Our staff understands that quality and uncompromised care goes hand-in-hand with working with your patient's individual insurance carrier. Let **Neurology Center of Las Vegas** take the worry out of benefit coordination and management.

We welcome and appreciate **ANY REFERRALS YOU MAY HAVE.**

- We complete the initial pre-certification for your patients
- We personally contact the patient to explain plan benefits, therapy prescribed & answer any questions
- We have established relationships with many national and local health care plans
- In most cases, a referral to our suite is less expensive for the patient than a referral to the hospital
- In some cases, we can refer patients for co-pay and/or drug reimbursement assistance

OUR GOAL is to provide a quality infusion experience;
with unmatched convenience and customer service
for your patients and your staff.

Send us one patient and we'll show you how we make a difference!

Camila Cheater, RN BSN
2480 Professional Court
Las Vegas, NV, 89128
702-425-3098 • 702-425-3097 (fax)
ccheater@intrafusion.com

Fax the patient's demographic information and requested medical documents.
We'll take it from there.
