DEFINITION OF A ROUTINE WELL- WOMAN VISIT

The focus of a well-woman visit is preventative care. If tests or services beyond the scope of a well-woman visit are provided, then additional charges may be incurred for those services. The choice to address both well care and medical issues is offered for the convenience of avoiding two visits; however, you may owe a cost share/copay for this additional service. Although our office will assist you with your insurance processing, it is the patient's responsibility to understand their insurance benefits.

What is included in a Well-Woman Visit
A review of your current health and medical history Counseling about ways to improve your health A physician exam tailored to your preventative care needs Immunizations and screening tests, if needed (some insurance will not cover these service)

What is not included in a Well-Woman Visit
Treatment or consultation for a specific medical condition Any service not considered part of a Well-Woman visit Any service that are not part of a routine Well-Woman Visit Additional tests or services that are not part of a routine Well-Woman Visit

Your scheduled appointment today is for a well-woman visit. Each insurance company has different contracts regarding group and individual coverage for Well Exam benefits. If tests or services beyond the scope of a well-woman visit are provided, then you may incur additional charges that are required to be paid at checkout, if not collected at check-in.

If you are uncertain of your coverage, please contact your insurance company regarding your benefits.
