Notice of Privacy Practices and Financial Policy

We keep a record of the health care services we provide you. We will not disclose your record to others, unless you direct us to do so or unless the law authorizes or compels us to do so. We may use and disclose your protected health information to provide, coordinate, or manage your health care and any related services. This may include your health insurance plan if it requires information before it approves or pays for the health care services recommended for you. You may get more information by contacting our staff or Privacy Officer.

Our office realizes that understanding our financial policies is an essential element of our patient healthcare and treatment. If you have any questions, please discuss them with our front office staff or business manager.

You are responsible for all prior authorizations/referrals needed to seek treatment in this office. The doctor may recommend services he feels are beneficial but may not be covered by insurance; and it is your responsibility to understand the limit and restrictions affecting coverage for these services. All health plans are not the same and do not cover the same services. In the event your health plan determines a service to be "not covered," or you do not have an authorization, you will be responsible for the complete charge. We will attempt to verify benefits for some specialized services or referrals; however, you remain responsible for charges to any service rendered. Patients are encouraged to contact their plans for clarification of benefits prior to services rendered. If your insurance company does not pay the practice within a reasonable period, we will have to look to you for payment. In the event you do not inform the office of insurance changes, you will be responsible for any charges denied. Your insurance policy reimbursement is a contract between you and your insurance company. As a courtesy, we will file your insurance claim for you if you assign the benefits to the doctor. In other words, you agree to have your insurance company pay the doctor directly. We will require a current copy of your insurance card in order to do this and will need to be informed of all changes in insurance status. You will be responsible for all copays, deductibles, co-insurance amounts, along with the entire amount of any non-covered services. Payment for services is expected at the time of service, unless other arrangements have been made in advance with our business office. We will accept VISA, MasterCard, Discover, cash or check. There is a service fee of \$25.00 for all returned checks. Your insurance company does not cover this fee. We have made prior arrangements with certain insurers and other health plans to accept an assignment of benefits. We will bill those plans with which we have an agreement and will only require you to pay the co-pay/coinsurance/deductible at the time of service. Patients who do not have insurance coverage (or proof of coverage) or who choose to pay for non-covered services are expected to pay in full at the time of service. There are certain elective surgical procedures for which we require prepayment. You will be informed in advance if your procedure is one of those. In that event, payment will be due one week prior to surgery. For most services provided in the hospital, we will bill your health plan. Any balance due is your responsibility. Past due accounts are subject to collection proceedings. All costs incurred including, but not limited to, collection fees, attorney fees and court fees are your responsibility in addition to the balance due our office.
